User Agreements

If you are not an employee of Argonne, a User Agreement signed by your home institution is a prerequisite for hands-on work at the APS. User Agreements are approved by someone with contracting authority for the institution and define rights and responsibilities in areas such as intellectual property rights and liability.

A list of institutions with User Agreements is available through the APS web pages. All listed Agreements are nonproprietary unless otherwise noted.

If your institution is not listed (or if your institution is listed but a unit or department or employment category other than your own is specified), you must complete an on-line APS User Agreement Questionnaire, which is the first step toward putting a User Agreement in place.
